

**Course FA-31                    PROGRESSIVE SPANISH FOR ENGLISH-SPEAKING STUDENTS**  
(45 class hours)

Lecturer:                    Dr. Francisco Javier Tamayo Morillo ([fjtamayo@us.es](mailto:fjtamayo@us.es))

Substitute Lecturer:    Dr. Manuel Padilla Cruz ([mpadillacruz@us.es](mailto:mpadillacruz@us.es))

**OBJECTIVES**

This Course is aimed at English-speaking students who already have a basic knowledge of Spanish. Its key objective is to improve their communication skills by means of the consolidation of their grammar competence and of the introduction of practical vocabulary so as to enable them to cope with the usual communication situations of everyday life. On the one hand, teaching methodology will be based on the assimilation of grammatical rules and their practical application via specific activities and, on the other hand, will involve the gradual and progressive use of Spanish as a vehicle for communication within the classroom.

**CLASSES: THE SET-UP**

The Lecturer will provide students with xeroxed material containing the grammar content to be studied with regard to each section of the Course syllabus. However, this does not mean that class sessions will be organized in terms of formal lectures on Spanish Grammar. In a key way, teaching will be practicebased: using specific grammar exercises as points of departure, explanations will be provided of those issues arising from the use of the Spanish language which tend to cause students most difficulty. Other activities within the Course will include: (a) dictations; (b) listening comprehension exercises; (c) reading comprehension exercises; (d) exercises in writing; and (e) vocabulary exercises. Use will also be made of representative works of literature with a double objective in mind: (a) their use as tools by which to improve students' communication skills, and (b) to give students the opportunity of accessing Spain's literary heritage. With this in mind, students will be expected to read the prose work *Lazarillo de Tormes* (in an edition adapted to their level of knowledge of Spanish), while extracts from the movie version of *Don Quijote de la Mancha* will also be screened.

**COMPLEMENTARY ACTIVITIES**

Two programmed activities will be undertaken so as to complement those carried out in the classroom:

(c) a city walk which will involve touring those places to which Miguel de Cervantes makes reference in his works. During the tour extracts from *Don Quijote* will be read so as to provide students with their first approach to Spanish Literature's most representative work.

(d) a visit to Triana Market, with two aims in mind: getting students used to the vocabulary linked with the consumption of foodstuffs in Sevilla on a day-to-day basis; and providing them with a context within which to practice common

communicative structures as employed by those who normally use this kind of commercial establishment.
